

# HEALTHGRADES ISSUES 2025 SAFEST HOSPITALS

## Where Does Yours Rank?

---

*Healthgrades*, a comprehensive database of ratings and comparisons for physicians, hospitals, and healthcare providers, has issued its 2025 Patient Safety Excellence Awards for providers across the nation. The award recognizes hospitals that excel at providing top-quality care while preventing serious safety events during hospital stays according to criteria established by Healthgrades. 12 hospitals in New Jersey, 17 in Pennsylvania, and 10 in New York were among hundreds across the country recently recognized for safety and patient experience. Healthgrades' [2025 Patient Safety Excellence Awards](#) recognize 442 hospitals in 40 states that represent the top 10 percent of hospitals nationwide for hospital safety, including the prevention of serious infections.

Below are the best hospitals for patient safety in our region:

- [New Jersey](#)
- [Pennsylvania](#)
- [New York](#)

For a full list of the top hospitals nationwide, [click here](#).

Per Healthgrades, if all hospitals performed at similar levels to those recognized in the prevention of serious injuries and illnesses, about 100,900 patient safety events could have been avoided from 2021 to 2023. To develop the list, Healthgrades' data scientists and clinical experts analyze Medicare claims for hospitalizations across 13 patient safety indicators, each representing a serious, potentially preventable complication.
